

PRODUCTS

### Linac QA Solution

Accurate and precise Linac QA

PRODUCTS

### Brachytherapy QA Solution

Management of the accurate location, spacing, and dwell time of internal radiation sources

### RaphaRAD Inc.

Is a company specializing in radiation therapy equipment. It was founded by clinically qualified medical physicists and radiation oncologists in the field of radiotherapy, with the overarching goal of "Uncomplicated cancer cure with complete therapeutic radiations".

Our primary focus is on the development of brachytherapy solutions, advanced particle therapy solutions, and associated therapeutic products aimed at providing more precise, effective, and safe treatment options for cancer patients.

MISSION

VISION

[ With complete Therapeutic Radiations ]

[ For Uncomplicated Cancer Cure ]

RaphaRAD Inc.  
165, Yeoksam-ro Gangnam-gu, 06247 Seoul, Korea  
(Haesung Bldg)

**Intensity Modulated Brachytherapy**

Minimize the side effects of radiation therapy for cervical cancer

» Tandem applicator

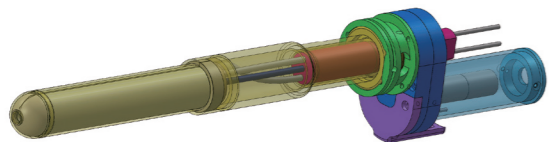

» Combination of rotational drive unit

**Cylindrical Brachytherapy System**

Minimize the side effects of radiation therapy for breast and vaginal cancers

» Cylindrical applicator

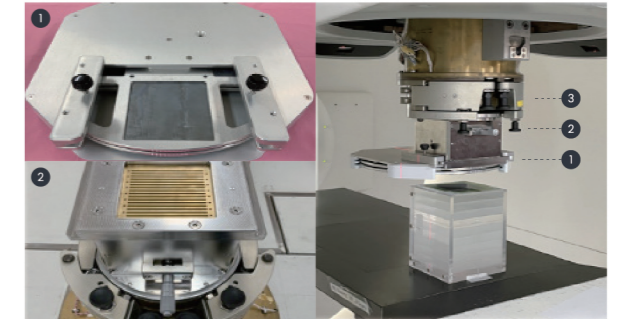

» Combination of rotational drive unit

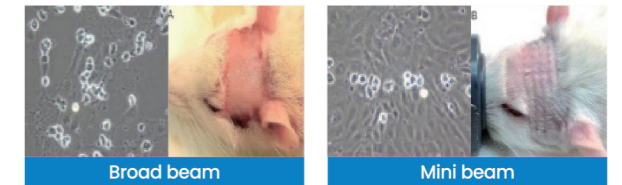

**Proton Minibeam Therapy**

Upgrading proton therapy to the next level

1&2 Longitudinal & Transverse beam modulators (Scatterer & MSC) 3 Range shifter 4 2nd particle absorber 5 Mounting system (SNOUT) 6 Dose calculation engine

Broad beam

Mini beam

**Lens Shield for Electron Therapy**

Protection of the lens during electron beam therapy
